

# Report

10a

Report to: Financial Resources Scrutiny Forum

Date of Meeting: 23 August 2018

Report by: Executive Director (Finance and Corporate Resources)

Subject: Capital Budget Monitoring 2017/2018 - General Fund

**Capital Programme** 

## 1. Purpose of Report

1.1. The purpose of the report is to:-

 update members of the Financial Resources Scrutiny Forum on the final outturn position of the Council's General Fund Capital Programme for the period covering 1 April 2017 to 31 March 2018.

#### 2. Recommendation(s)

- 2.1. The Forum is asked to approve the following recommendation:-
  - (1) that the final outturn position on the 2017/2018 General Fund Capital Programme be noted.

## 3. Background

- 3.1. The Capital reports attached provide detail on the position as at 31 March 2018 from a financial perspective.
- 3.2. Appendix A shows the financial position of the General Fund Capital Programme. Any physical progress update for projects carried forward into financial year 2018/19 will be picked up as part of the new year monitoring report.

## 4. Employee Implications

4.1. None

## 5. Financial Implications

- 5.1. The General Services Capital Programme for 2017/18 totalled £78.242 million. This reflects the programme agreed by the Executive Committee on 28 June 2017 and the subsequent amendments made through regular monitoring reports to Committee throughout 2017/18.
- 5.2. Appendix A shows the total expenditure of £57.864 million on the General Fund capital programme for year 2017/18.
- 5.3. Some of the expenditure (£2.377 million) included in the total of £57.864 million should be classified as Revenue spend for accounting purposes due to the nature of the spend, for example minor works and approved spend on non Council assets (Clyde Gateway £1.6 million and Clyde and Avon Valley Landscape Partnership £0.638 million). Therefore, this has been removed and transferred to the Revenue Account (£2.377 million) along with the relevant funding. This expenditure/funding will be included in the final Revenue outturn

position for 2017/18. This adjustment results in a reduced capital spend of £55.487million, for accounting purposes. This position is also noted in Appendix A.

- 5.4. The difference between the revised programme of £78.242 million and the actual spend of £57.864 million is £20.378 million.
- 5.5. The main projects which make up the overall underspend of £20.378 million are detailed in Appendix B. For all of these projects, the underspend reflects the expected timing of project spend and funding will carry forward into next financial year. Appendix B details the projects and their anticipated completion dates.
- 5.6. Following the year-end, the 2017/18 carry forward exercise was finalised. A carry forward total of £20.593 million will ensure sufficient budget is available to conclude ongoing projects within the General Fund Capital Programme.
- 5.7. This carry forward figure of £20.593 million reflects the 2017/18 underspend of £20.378 million, adjusted to reflect the actual position of income received including additional income that increases the amount available for spend.

#### 6. Other Implications

- 6.1. The main risk associated with the Council's Capital Programme is an overspend. The risk has been assessed as low given the detailed project management plans prepared and monitored for each project. The risk of overspend is managed through four weekly Investment Management Meetings.
- 6.2. There are no implications for sustainability in terms of the information contained in this report.

## 7. Equality Impact Assessment and Consultation Arrangements

- 7.1. This report does not introduce a new policy, function or strategy or recommend a change to existing policy, function or strategy and therefore no impact assessment is required.
- 7.2. There was also no requirement to undertake any consultation in terms of the information contained in this report.
