

# Report

Report to:	Financial Resources Scrutiny Forum
Date of Meeting:	24 May 2018
Report by:	Executive Director (Finance and Corporate Resources)

# Subject: Capital Budget Monitoring 2017/2018 - General Fund Capital Programme

# 1. Purpose of Report

- 1.1. The purpose of the report is to:-
  - update members of the Financial Resources Scrutiny Forum of progress on the Council's General Fund Capital Programme for the period covering 1 April 2017 to 2 March 2018.

## 2. Recommendation(s)

- 2.1. The Forum is asked to approve the following recommendation:-
  - (1) that the physical and financial progress of the 2017/2018 General Fund Capital Programme be noted.

## 3. Background

- 3.1. The Capital reports attached provide detail on the position as at 2 March 2018 from both a financial and physical perspective.
- 3.2. Appendices A to C show the financial position of the General Fund Capital Programme, with the physical progress detailed in Appendices D to F as they are split into Build, Non Build and Roads.

## 4. Employee Implications

4.1. None

# 5. Financial Implications

## 5.1. <u>2017/18 Budget</u>

The budget agreed at Executive Committee on 16 May 2018 was £78.242 million. The programme has been updated to reflect the proposed additional funding adjustment and change to funding adjustment listed in Appendix C however both of these updates are for the 2018/19 programme so there is no change to the 2017/18 budget which remains at £78.242 million. The budget of £78.242 million is presented in Appendices B and C.

## 5.2. <u>2017/18 Outturn</u>

In terms of the General Services Capital Programme, work has been ongoing to clarify the predicted spend position for this financial year and current estimates from Housing and Technical Resources suggest an outturn of £59.142 million. This is an underspend of

£19.100 million and the main reasons for this relates to the Primary Schools' Modernisation Programme and Growth and Capacities Programme (£8.8m) within Education Resources.

- 5.3. In addition, within Community and Enterprise Resources slippage is anticipated in a number of projects. For all of these projects this reflects the expected timing of project spend and funding will carry forward into next financial year. A list of these projects, along with their anticipated completion dates, is included in Appendix A.
- 5.4. Period 13 Position

Budget for the period is £58.301 million and spend to the 2 March 2018 is £48.599 million (62.11%). This represents expenditure of £9.702 million behind profile. This is mainly due to the reasons covered at 5.2 and 5.3. above.

- 5.5. Actual funding received to 2 March 2018 is £72.440 million (92.58%).
- 5.6. Appendices D to F advise on the related physical progress of the General Fund Capital Programme for 2017/2018 and these are split across three elements: Build; Non-Build and Roads.

## 6. Other Implications

- 6.1. The main risk associated with the Council's Capital Programme is an overspend. The risk has been assessed as low given the detailed project management plans prepared and monitored for each project. The risk of overspend is managed through four weekly Investment Management Meetings.
- 6.2. There are no implications for sustainability in terms of the information contained in this report.

## 7. Equality Impact Assessment and Consultation Arrangements

- 7.1. This report does not introduce a new policy, function or strategy or recommend a change to existing policy, function or strategy and therefore no impact assessment is required.
- 7.2. There was also no requirement to undertake any consultation in terms of the information contained in this report.

## Paul Manning Executive Director (Finance and Corporate Resources)

## SOUTH LANARKSHIRE COUNCIL CAPITAL EXPENDITURE 2017/18 GENERAL FUND PROGRAMME FOR PERIOD 1 APRIL 2017 TO 2 MARCH 2018

Projects with Underspends in 2017/18	Completion Date
School Modernisation:	•
St John's Primary School – classroom extension	12 September 2018
Hallside Primary School	25 May 2018
Tinto Primary School	20 April 2018 - Now
	Complete
Crawforddyke Primary School – classroom extension	Review of requirements re
	extension and the
	implications of 1140 hours
	ongoing.
Underbank Primary School (includes additional	5 October 2018
funding from Scottish Futures Trust of £1.6m)	
St Patrick's Primary School	20 April 2018 - Now
	Complete
Walston Primary School (Includes additional funding	29 March 2019
from SFT of £1.4m)	
Crawford Primary School	4 May 2018 - Project
	complete
Other small underspends in Education programme	Funding will carry into
	2018/19 to progress jobs
	including 1140 hours nursery.
Other Capital Projects :	
Vacant and Derelict Land – Shawfield and Glen Esk	Approval for the Glen Esk
projects (£1.3m)	project was only obtained
	from the Scottish
	Government in late
	November 2017. Works
	scheduled for completion by
	March 2019 (as per Local
	Delivery Plan).
City Deal – Community Growth Areas (£1.1m)	Projects will continue over the
	years of the City Deal
	programme.

### Proposed Adjustments

#### Community and Enterprise Resources

#### Rural Development Centre, Lanark

As reported to the Community and Enterprise Resources Committee on 6 March 2018, funding of £0.800m was secured from the Scottish Government's Regeneration Capital Grant Fund (RCGF) to create a Rural Development Centre in Lanark. The works would encompass new business office accommodation and community benefits. In order to reflect the timescales for this project to commence on site, the 2018/19 Capital Programme will be increased by £0.800m.

Hamilton Community Growth Area - Highstonehall Road, Hamilton

Approval was granted at the Housing and Technical Resources Committee meeting on 7 March 2018 to dispose of the site at Highstonehall Road, Hamilton. Off-site road upgrades with associated works and site preparation of the Council's affordable housing area, were identified as potential areas for support and a bid of £1.600m has been included in the current Glasgow City Region City Deal Programme. This bid is subject to City Deal approval, with the Final Business Case due to be submitted to the Chief Executive's Group late summer 2018. Until this is agreed, and to allow the project to progress, approval is sought to fund these works in the interim from the capital receipt from the sale of the site. This affects funding only. The overall planned spend will not change.

# General Fund Capital Programme 2017/18

## Non-Build Variance Explanations

Project Name	<u>Status</u>	Variance Explanation
Vacant and Derelict Land	Behind Programme	Current underspend is due to timescales of remediation works at Clyde Gateway and revised timescales of works at Glen Esk.
City Deal – Community Growth Areas	Behind Programme	Current underspend is mainly due to the reprofiling of spend into future financial years along with the Newton Park & Ride construction costs anticipated to be significantly less than the figure included in the Final Business Case.
iSDX Telephony Replacement	Behind Programme	Current underspend is a profiling issue only. Project on track with full spend anticipated this financial year.
Mobile Working	Behind Programme	Current underspend anticipated this financial year due to timing of project delivery, which are largely customer dependent.
Chatelherault County Park Woodland Management	Behind Programme	Current underspend is due to the severe weather conditions experienced in late February / March impacting on the progress of works.
Education Information Communication Technology Solutions for Learning	Behind Programme	Current underspend is due to price reductions and specification changes for mobile devices. Any underspend will be required to manage project spend in future financial years.

## General Fund Capital Programme 2017/18 Variance Explanations

Project Name	<u>Status</u>	Variance Explanation
L.E.D. Luminaire Conversions	Behind Programme	Current underspend is due to a delay in receiving specific light fitments for major distributor roads and remedial works which will not be carried out until early in 2018/19. The bad weather in February / March has caused further delays.
