

Report

Report to: Date of Meeting: Report by:

Financial Resources Scrutiny Forum 21 February 2019 Executive Director (Finance and Corporate Resources)

Subject:

Revenue Budget Monitoring 2018/2019

1. Purpose of Report

- 1.1. The purpose of the report is to:-
 - update members of the Financial Resources Scrutiny Forum of progress on the Council's revenue budget for the period covering 1 April 2018 to 4 January 2019.

2. Recommendation(s)

- 2.1. The Forum is asked to note the following recommendation(s):-
 - that the 2018/2019 Financial Position as at period 11 (4 January 2019) and the forecast to 31 March 2019, for General Services, Housing Revenue Account and Trading Operations (as detailed in Appendices A to F), be noted.

3. Background

- 3.1. The Revenue reports attached provide detail on the most recent Executive Committee report dated 13 February 2019. The reports detail the position as at 4 January 2019 for General Services, Housing Revenue Account and the Council's Trading Operations.
- 3.2. The papers have been split into separate Appendices as shown below:
 - Appendix A 2018/2019 Probable Outturn Position for the Council for General Services
 - Appendix B 2018/2019 Resource Transfers to Reserves
 - Appendix C 2018/2019 Financial Position before Transfers to Reserves as at Period 11 (4 January 2019) for General Services
 - Appendix D 2018/2019 Financial Position after Transfers to Reserves as at Period 11 (4 January 2019) for General Services
 - Appendix E 2018/2019 Financial Position as at Period 11 (4 January 2019) for Housing Revenue Account
 - Appendix F 2018/2019 Financial Position as at Period 11 (4 January 2019) for the Council's Trading Operations

4. Employee Implications

4.1. None

5. Financial Implications

- 5.1. The financial position of the General Services Revenue Budget, Housing Revenue Account and the Council's Trading Operations are detailed in Appendices A to F.
- 5.2. This report summarises the 2018/2019 forecast spend for the Council's General Fund Revenue Account to 31 March 2019 (section 6). This is known as the Probable Outturn position. It will also provide details of the General Services Monitoring Position regarding actual expenditure and income to 4 January 2019, compared with the budget for the same period (section 7).
- 5.3. When establishing the probable outturn position for the year, Resources were asked to take all known commitments into account. The report will detail the anticipated spend for the current year and will propose funds to be transferred to reserves for future commitments. The report will also detail the position after proposed transfers to reserves to take account of those known commitments required in the next financial year.

6. 2018/2019 General Services Probable Outturn

- 6.1. Appendix A shows the probable outturn position for the Council.
- 6.2. As per section 5.3, to reflect this, the outturn position in Appendix A shows the position **before** Transfers to Reserves and alongside this, the transfers to reserves and then the outturn position **after** Transfers to Reserves.
- 6.3. Overall Council Position: The outturn position is an underspend of £13.257 million, before any transfers to reserves. This is an improved position (by £4.435 million) compared to the underspend of £8.822 million reported at period 9.
- 6.4. The main elements of the £4.435 million movement from the period 9 reported position are noted below:
 - £2.162 million in Education Resources is due to the timing of recruitment within the Early Years' Service, reduced energy consumption, an over recovery of income reflecting the receipt of additional funding for the ELC graduate programme, offset by an overspend in ASN transport and additional costs resulting from the cost of external placements.
 - £0.686 million in Housing and Technical Resources (including Trading Operation) is due to an increase of £0.711 million in the underspend on the Scottish Government funding for Temporary Accommodation within the Homeless Service.
 - £1.395 million in Corporate Items is mainly due to carbon reduction commitment (£0.227 million), utilities (£0.434 million), pay model structure (£0.415 million), over recovery of income from interest on revenue balances (£0.510 million), offset by a charge of £0.372 million for Council Tax Second Homes.
- 6.5. **Resource Transfers to Reserves:** As noted in 5.3, Resources have proposed Transfers to Reserves. These are detailed in Appendix B attached and total £6.194 million (Line A). After taking the Resources' proposed transfers to Reserves into account, the outturn position after all transfers to reserves is an underspend of £7.063 million.
- 6.6. There are a number of corporate pressures that require to be managed from this underspend as shown in Table 1:

Table 1: Corporate Pressures Funding

	£m
Outturn Position (section 6.5)	7.063
2019/2020 Strategy (previously proposed to reduce savings requirements)	(4.000)
	3.063
Less:	
2018/2019 Pay Award – additional 0.5%	(1.305)
Revised Outturn after known commitments and Transfers to Reserves	1.758

- 6.7. Taking the corporate pressures into account, results in a revised underspend after transfers of **£1.758 million**.
- 6.8. The table in Appendix B also notes the previously agreed Priorities and Investments Budget Transfers to reserves (Line B) as well as the transfer earmarked to support the 2019/2020 Budget Strategy as detailed in Table 1 above (£4.000 million - Line C).
- 6.9. Details of the Resource positions, including any assumptions are detailed below.
- 6.10. Community and Enterprise Resources (including Trading Operations): The outturn position before any Transfers to Reserves is an overspend of £0.071 million, comprising an underspend in the Non Trading Services of £0.730 million, offset by an under recovery of surplus in the Fleet Trading Operation (£0.776 million) and Roads Trading Operation (£0.025 million) totalling £0.801 million. This includes £0.400 million in respect of the additional payment to SLLC in respect of the financial pressures being experienced this year and a net cost of £0.219 million in relation to compensation payments and Council legal costs in respect of the food safety case, offset by insurance funding.
- 6.11. The Resource is proposing transfers to reserves totalling £0.437 million which would take the reported position **after transfers** to reserves of an **overspend of £0.508 million**. The transfers are detailed in Appendix B.
- 6.12. Education Resources: The position before any transfers to reserves is an underspend of £4.462m. The Resource previously reported a £2.300 million underspend in respect of Pupil Equity Fund (PEF). The outturn position is showing an additional underspend of £2.162 million *(see section 6.4 for details).*
- 6.13. The Resource is proposing transfers to reserves totalling £4.424 million which would take the reported position after transfers to reserves of an underspend of £0.038m. The transfers are detailed in Appendix B. These are in the main in relation to Early Years.
- 6.14. **Finance and Corporate Resources:** The position **before** any transfers to reserves is a **breakeven position**. There are no proposed transfers to reserves. This is in line with the position that has been reported to Committee during the year.
- 6.15. Housing and Technical Resources (including Trading Service): The position before any transfers to reserves is an overspend of £0.526 million, comprising an underspend in the Non Trading Services of £0.899 million offset by an under recovery of surplus in the Property Trading Operation of £1.425 million. The under recovery in the Property Trading Operation reflects the income received as a result of the timing of works of works for a number of projects. These include Early Years, Central Heating programmes, and Growth and Capacities in schools.

- 6.16. The Resource is also proposing a transfer to reserves for the Scottish Government funding for Temporary Accommodation within the Homeless Service totalling £0.899 million which would take the reported position **after transfers** to reserves to an **overspend of £1.425 million**.
- 6.17. Social Work Resources: The position before any transfers to reserves is a net overspend of £1.109 million. This overspend is slightly higher than the £1.000 million that has been reported to Committee throughout the year and relates to Children and Families (external residential places, foster places as well as the level of kinship care payments) and Adults and Older People (being overtime and staff costs), partially offset by underspends in Performance and Support and Justice due to vacancies.
- 6.18. **Loan Charges:** The outturn position for loan charges is an underspend of £5.900 million. This is the position that has been reported to Committee at period 9. This reflects the timing of borrowing (delayed due to using cash balances) and the interest rates achieved.
- 6.19. **Corporate Items:** The position being reported is an **underspend of £1.895 million before** transfers to reserves. This is an increase on the £0.500 million underspend in relation to Superannuation on Overtime, reported in period 9, and is mainly made up of the following:
 - Carbon Reduction Commitment underspend (£0.227 million) as previously purchased allowances are sufficient to meet this year's costs. This funding will be required to meet costs in future years.
 - Superannuation on Overtime (£0.500 million) not required in the current or in future years. The budget has been removed as part of the 2019/2020 budget strategy.
 - An underspend on utilities (£0.434 million) for price increases that have not materialised to the same extent as anticipated. This funding will be required to meet costs in future years.
 - Pay Model Structure budget not required in 2018/2019 (£0.415 million). This budget will be allocated to Resources as part of the 2019/2020 budget exercise.
 - Over recovery of income from interest on revenue balances (£0.510 million) reflecting the profile of cash balances held by the Council across the year, and the interest rate achieved.
 - Finally, this is offset by a commitment in respect of Council Tax Second Homes (£0.372 million), reflecting the level of Council Tax income recovered from second homes.
- 6.20. The position after the proposed transfer to reserves for utilities is an **underspend of £1.461 million**.
- 6.21. Previously Approved Transfers to Reserves / New Initiatives: As reported in period 9, there are already agreed transfers to reserves proposed in respect of the new initiatives funding included in the budget for Teachers, Employability, Holiday Lunch Clubs and School Breakfast Clubs. These monies were included in the 2018/2019 Revenue Budget, but were approved to cover two financial years including 2019/2020. This is therefore shown in the Transfers to Reserves line in the Appendices, as the money will carry forward into 2019/2020. The figure previously reported was £5.148 million. This has increased by £0.043 million to £5.191 million in relation to an additional underspend in Employability. There is no variance on this line as the outturn equates to the budget.

- 6.22. **Council Tax and Council Tax Reduction Scheme:** The position is showing an **over recovery of £2.706 million**. This is £0.372 million higher than that reported to Committee at period 9. The £0.372 million relates to income from Council Tax on second homes and is offset by expenditure in the Corporate Items line.
- 6.23. **General Services Probable Outturn Summary:** As detailed in section 6.7, the final outturn position is an underspend position of £1.758 million.
- 6.24. This position takes account of the proposed Resource Transfers to Reserves, the corporate Transfers to Reserves, the £4.000 million transfer for use in the 2019/2020 strategy and the 2018/2019 pay award.

2018/2019 General Services Monitoring Position

7. Financial Position as at 4 January 2019 (Period 11)

- 7.1. General Fund Revenue Account: As at period 11 (4 January 2019), the position on the General Fund before transfers to reserves is an underspend of £12.040 million (Appendix C). Appendix D shows the position assuming the approval of the proposed transfers to reserves, as an underspend of £6.627 million.
- 7.2. The underspend position (before transfers) is in line with the forecast position for the General Fund (section 6), reflecting the underspend in Education Resources, overspend on Social Work Resources and the under-recovery of surplus on the Property Trading Service, offset by a positive position on Corporate Items, Loan Charges and Council Tax.
- 7.3. 2018/2019 Additional General Revenue Grant: In December 2018, Finance Circular 8/2018 notified the Council of General Revenue Grant Re-determinations for 2018/2019. These total £0.197 million and relate to new allocations in respect of sanitary products in public buildings (£0.078 million), Rapid Rehousing Transition Planning (£0.105 million), and child burials and cremations (£0.014 million). The annual budget and outturn figures included in the Appendices to this report include this additional funding.
- 7.4. **Other Funding:** Education Resources have been notified of funding from the Scottish Government from the Realising Change Fund to support the implementation of the early years and childcare entitlement to 1140 hours. The funding allocated in 2018/2019 is £0.125 million. Any underspend can be carried forward to the next year, therefore any underspend in the 2018/2019 allocation will be prepaid to the Balance Sheet to meet commitments in 2019/2020.
- 7.5. **Transfers from Capital:** The 2018/2019 Capital Programme included an allocation of £4.551 million for Planned Asset Management. However, following a review of this programme of works to date, it has been identified that some of this expenditure cannot be classed as capital and budget of £1.022 million has therefore been included in the Housing and Technical Resources' Revenue Budget (as per Appendices attached).
- 7.6. The total overall budget for Planned Asset Management, across capital and revenue, remains at £4.551 million. The remaining spend to be incurred by the end of the financial year, will be reviewed to ensure it is classed appropriately (as revenue or capital), and any further budget movement reported to a future meeting.

8. Housing Revenue Account Position

8.1. As at 4 January 2019, Appendix E of the report shows a breakeven position against the phased budget on the Housing Revenue Account. The forecast to 31 March 2019 on the Housing Revenue Account is a breakeven position.

9. Trading Operations

- 9.1. Included within the position for the General Fund Revenue Account in 6.3 are the Trading Operations. As at 4 January 2019, the actual surplus achieved by the Trading Operations before transfers to reserves totals £5.888 million, representing an under recovery of £2.007 million against the phased budget. These are detailed in Appendix F of the report.
- 9.2. As previously reported, there is an under recovery of surplus within the Property Trading Operation resulting from the timing of works.
- 9.3. There is also an under recovery that relates to the Fleet and Roads Trading Operations and is offset by an underspend in the Community and Enterprise Resources' budget.

10. Other Implications

- 10.1. The main risk associated with the Council's Revenue Budget is that there is an overspend. The risk has been assessed as low given the detailed budget management applied across the Resources. The risk is managed through four weekly Budget Monitoring Meetings at which any variance is analysed. In addition, the probable outturn exercise ensures early warning for corrective action to be taken where appropriate.
- 10.2. There are no implications for sustainability in terms of the information contained in this report.

11. Equality Impact Assessment and Consultation Arrangements

- 11.1. This report does not introduce a new policy, function or strategy or recommend a change to an existing policy, function or strategy and therefore no impact assessment is required.
- 11.2. There is also no requirement to undertake any consultation in terms of the information contained in this report.

Paul Manning Executive Director (Finance and Corporate Resources)

Variance Explanations

1. Employee Costs

This underspend reflects the current turnover levels and vacancies across the service.

2. Property Costs

This underspend relates to bad debt provision being lower than anticipated, partially offset by reflects expenditure on repairs which are demand led.

3. Income

This under recovery relates to rental income and reflects the timing of the completion of new build properties.

Position After Transfers to Reserves (as at 04/01/19)						(0.760)	(0.772)	under surplus	(50.4%)	

Variance Explanations

1. Employee Costs

The underspend relates vacancies within the Fleet workshop.

2.

Transport and Plant The overspend relates to expenditure on tyres, outside repairs and the timing of the achievement of efficiencies.

3. Administration Costs

The overspend relates to employee medical referrals.

4. Income

The net under recovery is due to a reduction in demand for pool cars, partially offset by income from plant maintenance.

Variance Explanations

1. Employee Costs

The underspend relates to staff turnover during the year.

- 2. Supplies and Services The overspend relates to expenditure on materials and will be offset by additional income.
- 3. Transport and Plant

The overspend relates to increased costs in relation to fuel.

4. Payment to Contractors

The overspend relates to an increased level of work being carried out by external contractors, as a result of high staff turnover during the year.

5. Income

The under recovery of income reflects the timing of rechargeable works carried out to date.

Variance Explanations

- 1. Employee Costs The underspend relates to staff turnover during the year.
- 2. Property Costs

The underspend is due to site security costs being lower than anticipated.

3. Supplies and Services

The underspend reflects the level of materials required for maintenance and contract works. This is demand led and can therefore fluctuate during the year.

4. Transport and Plant

The underspend reflects the level of scaffolding required for works to date. This is demand led and can therefore fluctuate during the year.

5. Payment to Contractors

The underspend reflects the level of sub-contracted work to date.

6. Income

The under recovery reflects the current workload and is offset by a reduction in expenditure.
