Dear Parent/Carer

In April 2019, a team of inspectors from Education Scotland and the Care Inspectorate visited Mount Cameron Primary School and Nursery Class. During our visit, we talked to parents/carers and children and worked closely with the headteacher and staff.

The inspection team found the following strengths in the school's work. Unless specified, they apply to the English and Gaelic Departments of the school and nursery.

- The headteacher and staff place a high level of importance on supporting children's wellbeing as central to learning. In so doing, they have developed effective partnerships to support children.
- Children are articulate and very motivated to be successful in their learning. They are very proud of their school. Those in Gaelic Medium Education (GME) value that they are developing fluency in Gaelic. The older children as *Ceannardan* (Leaders) work well with younger children, particularly in their use of Gaelic for immersion.
- Staff have had a successful focus on raising attainment in literacy and English.
- Children benefit from a range of achievements. Together with staff, they have had their efforts recognised nationally through certification such as Eco-Schools Scotland and sportscotland School Sports Award.

The following areas for improvement were identified and discussed with the headteacher and two representatives from South Lanarkshire Council.

- All staff should continue to work together to ensure a strategic overview of how well the range of assessment and moderation approaches used allow children to show their skills, knowledge and understanding across curricular areas.
- Staff should continue to ensure consistency in high-quality learning experiences for all children. This should include increasing the level of challenge in tasks and activities. Staff in GME should build further on recent improvements to immersion.

We gathered evidence to enable us to evaluate the school's work using quality indicators from [How good is our school? \(4th edition\)](#) and [How good is our early learning and childcare?](#). Quality indicators help schools, local authorities and inspectors to judge what is working well and what needs to be improved. Following the inspection of each school, the Scottish Government gathers details of our evaluations to keep track of how well Scottish schools are doing.

Here are Education Scotland's evaluations for Mount Cameron Primary School and Nursery Class

Quality indicators for the primary school	Evaluation
Learning, teaching and assessment	good
Raising attainment and achievement	good
Descriptions of the evaluations are available from: How good is our school? (4th edition), Appendix 3: The six-point scale	

Quality indicators for the nursery class	Evaluation
Learning, teaching and assessment	good
Securing children's progress	good
Descriptions of the evaluations are available from: How good is our early learning and childcare? Appendix 1: The six-point scale	

Here are the Care Inspectorate's gradings for the nursery class

Care Inspectorate standards	Grade
Quality of care and support	good
Quality of management and leadership	good

Requirements/recommendations made by Care Inspectorate for the nursery class

During the previous Care Inspectorate inspection, the setting had no requirements and no recommendations. As a result of this inspection, there are no requirements and no recommendations.

This letter and a more detailed document called Summarised Inspection Findings (SIF) will be available on the Education Scotland website at: <https://education.gov.scot/inspection-reports/south-lanarkshire/8531625>

What happens next?

We are confident that the school has the capacity to continue to improve and so we will make no more visits in connection with this inspection. South Lanarkshire Council will inform parents/carers about the school's progress as part of its arrangements for reporting on the quality of its schools.

Report to: **East Kilbride Area Committee**
 Date of Meeting: **20 November 2019**
 Report by: **Executive Director (Community and Enterprise Resources)**

Subject: **Roads Investment Plan - Progress Report**

1. Purpose of Report

1.1. The purpose of the report is to:-

- ◆ set out progress with roads investment activity in the East Kilbride Area Committee area

2. Recommendation(s)

2.1. The Committee is asked to approve the following recommendation(s):-

- (1) that the progress in roads investment activity in 2019/2020 be noted.

3. Background

3.1. It is recognised there is a need to report progress on key priorities to the relevant Area Committee. Given that the original Roads Investment Plan 2008/2019 represented a total investment of £126 million, it was clearly a key Council initiative. Consequently, this report provides the Committee with an update on progress in the East Kilbride Area Committee area in the first year after the end of the initial roads' investment period.

3.2. The condition of roads and pavements continues to be a significant concern for members of the public. The South Lanarkshire Household Survey of 2010 recorded a public satisfaction rating of only 18.6% with regard to the condition of roads and footways highlighting the need to continue the investment programme. A further independent survey in 2013 recorded a satisfaction rating of 24.7% for road conditions. The most recent Household Survey in 2014 identified some further progress with satisfaction levels increasing to 29%. However, this remained the lowest rating of any Council Service and it is clear that while good progress has been achieved, much work remains to be done.

3.3. The initial Roads Investment Plan ended in March 2019, with a further £11 million of capital "steady state" funding subsequently being committed for the current year. The Council's approved Capital Strategy commits to continuation of funding at "steady state" levels.

4. Improving the Road Network

4.1. The road network is the highest value asset owned by the Council, worth over £3 billion. With this in mind, the Council Plan identifies improvements to the road network as one of the Council's key objectives/priorities.

- 4.2. The total value of the works over the 12 years since 2008 is £137 million and was phased as follows:-

Year	£m per annum	Total
2008 - 2009	£6 million	£6 million
2009 - 2010	£12 million	£18 million
2010 – 2011	£12 million	£30 million
2011 - 2012	£12 million	£42 million
2012 – 2013	£12 million	£54 million
2013 – 2014	£12 million	£66 million
2014 - 2015	£12 million	£78 million
2015 - 2016	£12 million	£90 million
2016 – 2017	£12 million	£102 million
2017 – 2018	£12 million	£114 million
2018 - 2019	£12 million	£126 million
2019 - 2020	£11 million	£137 million

5. Priorities

- 5.1. Each carriageway and footway scheme identified for improvement is scored using the criteria listed below. The schemes are then ranked in order of priority to ensure those requiring attention and providing the greatest benefit are included in a programme at the earliest possible date. From 2019/2020 onwards this has been done on a Council-wide basis rather than defined budget splits for each Area Committee area.
- 5.2. This ensures priorities of greatest need across the Council area are addressed.

Carriageway Scoring System			
	Criteria	Max Score	Score
1	Condition	70	70
2	Maintenance Category	30	30
Maximum Total			100

Footway/Footpath Scoring System				
	Criteria	Max Score	Weighting	Score
1	Condition	10	5	50
2	Importance/Accessibility	5	2	10
3	Claims/Defect Reports	10	2	20
4	Assistance to Other Priorities	10	2	20
Maximum Total				100

- 5.3. This approach of treating the worst roads first is also being increasingly complemented by an “asset management” approach whereby relatively low cost interventions, such as surface dressing, are being used to seal existing road surfaces, improve skid resistance and generally prolong the life of the road.
- 5.4. Such an approach represents good value for money and a long-term outlook. However, it can generate comments that “better” roads are being treated before those which are “worse”.

6. Progress to Date – 2019/2020

- 6.1. To 13 September 2019, in total 100 schemes have been completed throughout South Lanarkshire, including 29 in East Kilbride. The remaining 14 in East Kilbride are schemes either in progress or programmed to be completed by March 2020 as shown below:-

Carriageway Schemes						
	No. of Schemes	Completed	In Progress	Programmed	To be programmed	% Complete
SLC	156	94	21	32	9	60.3
East Kilbride	40	28	7	4	1	70.0

Footway Schemes						
	No. of Schemes	Completed	In Progress	Programmed	To be programmed	% Complete
SLC	14	6	2	4	2	42.9
East Kilbride	3	1	1	1	0	33.3

- 6.2. The schemes in the East Kilbride Area for 2019/2020 are listed in Appendix 1.
- 6.3. The condition of roads is monitored nationally via the Scottish Road Maintenance Condition Survey (SRMCS). South Lanarkshire Council's results for 2018/2019 (the most recent results available) show the Council is now 9th of the 32 Councils in terms of the condition of its road network.
- 6.4. The road condition index shows a long-term trend of improvement as shown in Appendix 2. However, it should be recognised that significant works still have to be undertaken on minor and residential roads, including footways, to bring them up to a reasonable standard.

7. Employee Implications

- 7.1. None.

8. Financial Implications
