

Skills Development Scotland (SDS) supplies information on the destinations of school leavers (SLDR), at an individual level, to the Scottish Government's Education Analytical Services Division. This return is based on a follow up of young people who left school between the 1st of August 2009 and the 31st of July 2010. The exercise was carried out during the month of September 2010 and produces a snapshot of destinations as at the 2nd October 2010. The data has undergone a robust matching & validation process. Only leavers from publically funded secondary schools, who will be included in the Scottish Government's publication: Destinations of Leavers from Scottish Schools: 2009/10, are included in the analysis below.
