Summary of Responses to Original Consultation June 2021

Following detailed assessment of the representations made following the public consultation on the proposed Community Asset Transfer of Jock Stein Sports Facility, I outline the main themes. As you were informed, it would be too onerous a task for BSA to answer each individually and you can address the main concerns as part of the ongoing process. A number of respondents simply objected to/supported the proposal without giving any detail. The tables below give the main reasons for objection/support. One respondent referred to an 1800 signature petition in objection but I have not physically received this.

Supports	Objects	Neither Supports or Objects
64	351	1
15.4%	84.5%
