6 Assessment of Walking Routes to Schools

A report dated 16 February 2016 by the Executive Director (Community and Enterprise Resources) was submitted on the guidance for the assessment of safe routes used by children walking to school.

At its meeting on 7 June 2004, the Council's Roads Safety Forum supported the adoption of the West of Scotland Road Safety Forum's (now known as Road Safety West of Scotland (RSWoS)) procedures for the assessment of walking routes to schools, attached as Appendix A to the report.

Information was provided on the principles of the guidance and assessment process.

A Sub-Group of representatives from RSWoS and local authorities had been established to review the current guidance and updated draft guidance had been produced. The draft guidance would continue to follow the fundamental principles of the assessment being based on road safety. The Sub-Group would meet again to consider the draft guidance further.

The Forum discussed the guidance which it considered did not address all aspects of road safety and proposed that Education Resources be requested to consider reviewing how assessments of walking routes to school were undertaken.

The Forum decided:

- (1) that the report be noted; and
- (2) that Education Resources be requested to consider reviewing the process for the assessment of walking routes to school.
