Planning Ref No:CR/11/0051

Dear Mr Morton

We strongly object to Mr Gamble's mobile home at 71 Lightburn Road,Cambuslang due to this overshadowing and overlooking our property.

Mr Gamble has already installed electricity to the mobile home and carrying out work to it,he is carrying on regardless despite having no confirmation of the outcome from the planning department.

Yours sincerely

Mr & Mrs Ross

Re: Application for Planning Permission for Siting of Mobile Home to rear of existing dwelling house made by: Charlie Gamble, 71 Lightburn Road Cambuslang G72 8UD

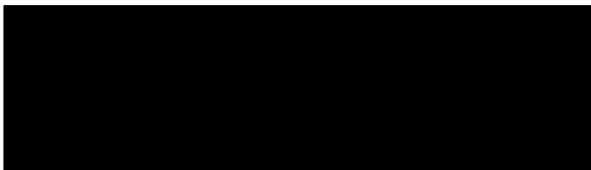

Ref: CR/11/0051

Dear Mr. Morton,

I would like to strongly object to the above application, as this is overlooking and overshadowing my rear garden. Also, the appearance of the property on a neighbours garden is totally unsightly. Whenever I or my neighbours enter and leave our own properties the mobile home can be seen which totally detracts from what is otherwise a lovely area.

I look forward to hearing from you with regards to the Council's decision which I trust will be to decline this application.

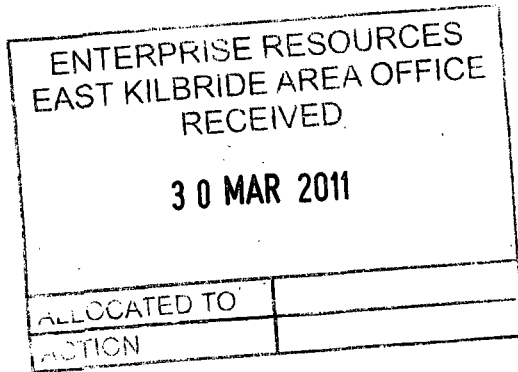

Yours sincerely

Mrs. Jean MacKenzie.

To whom it may concern,

We are sending you this letter in reply to the Neighbour Notification Notice received on 19/03/11, regarding the planning permission for the Siting of a Mobile Home in the existing dwellings of, 71 Lightburn Road, Cambuslang, Glasgow G72 8UD.

As a neighbour of the above address, we object that the mobile home be sited in that area due to the mobile home being put in place without any permission to their local authorities or notification to its surrounding neighbours.

Our concerns are as follows:

1. The mobile home position is that it looks onto our gardens and our private dining/kitchen area and we feel is an invasion of our privacy.
2. If the home is being occupied by a family, where does the sewerage go to from the property.
3. Has the property been electrically tested as there is a cable coming from the main house to the mobile home.
4. We have noticed that over the past few weeks that the occupiers of the mobile home have a large dog, which is rather noisy and that our baby daughter sleeps to the back of our house nearest the mobile home.
5. Does the occupiers have a fresh water supply, if so, then are they due to pay council tax or rates like the rest of the neighbourhood.
6. There is still a small caravan in the yard of the same address, are they planning on occupying that as well ?

I would like to ask the question, if a building contractor wanted to build on 71 Lightburn Rd, on the same piece of land as the mobile home, I don't think this would be granted due to the

- proximity to the surrounding homes.

Yours Faithfully

Mr J. Allan

Dear Sir

We strongly object to the planning application CR/11/0051 made by Mr Gamble. This has went ahead with no regard to following proper procedures.

We do not believe that this is a mobile home he has situated but a static chalet, we are also concerned about the feeding of an electric cable running from his home to the chalet and also the subject of waste.

We also feel is this what is going to happen in the area when a family member becomes homeless, does it mean we can all site a mobile home/chalet in our garden, surely this is one of the reasons for people getting council houses because they are homeless.

Yours sincerely

Mr & Mrs McManus
