

Report

Report to:	Executive Committee
Date of Meeting:	24 June 2020
Report by:	Executive Director (Finance and Corporate Resources)

Subject:	Participatory Budgeting
----------	--------------------------------

1. Purpose of Report

1.1. The purpose of the report is to: -

- ♦ provide an update in relation to Participatory Budgeting, and to gain agreement to progress with areas of participatory budgeting in due course.

2. Recommendation(s)

2.1. The Committee is asked to approve the following recommendation(s):-

- (1) that the information be noted; and
- (2) that the participatory budgeting areas identified in Appendix 1 are agreed.

2. Background

2.1. An awareness session was held in May 2019 to provide elected members with proposals on where Participatory Budgeting could be rolled out across some council services. A subsequent session took place on 21 February 2020 and an Elected Members' Briefing Film was made available on 27th May 2020.

2.2. The members' session in February covered a number of areas including:-

- The areas proposed to progress through Participatory Budgeting (see section 3)
- How we engage with the community in the proposals for Participatory Budgeting (section 4)
- Update on Participatory Budgeting Charter (see section 5)
- The role of elected members in Participatory Budgeting (section 6)

2.3. It was proposed that we undertake a review of Participatory Budgeting activity after March 2021, looking at the outcomes achieved and proposed further areas for rolling out participatory budgeting

3. Proposed Participatory Budgeting Areas

3.1. At both Awareness Sessions, members were advised of the proposed areas for Participatory Budgeting. A summary of these areas is included in Appendix 1.

3.2. When approval is given, Services will then work to prepare and plan to deliver Participatory Budgeting over the coming months. Practical considerations that will need to be addressed include:

- Arriving at options for consideration by the community
- Awareness raising for communities on Participatory budgeting

- Planning and delivering consultation exercises
- Consolidation of results
- Practical planning for delivery of outcomes (change management)

4. How Do We Engage with the Community for these Proposals

- 4.1. How we engage with the community was also addressed at the Awareness sessions. The Council is working to improve levels of community participation and activity that aid the delivery of the aspirations contained in the Community Empowerment Act.
- 4.2. Measures have been implemented, including the requirements for Local Outcome Improvement Planning and locality planning (referred to as neighbourhood planning within South Lanarkshire), and the expectation is that partnership approaches, both with communities and with other partner organisations, will become more prevalent. This will ensure a coordinated approach to community participation and empowerment which is clearly and demonstrably outward looking.
- 4.3. In relation to Participatory Budgeting, the 8 proposals suggested in the awareness session through which Participatory Budgeting could be taken forwards are covered in Appendix 1.
- 4.4. The way Participatory Budgeting could be carried out for each proposal will vary, depending on the question which is being asked of the community.
- 4.5. Support should be given to those sections of the community which are least likely to participate, and this can be provided through Community Engagement staff who are already working within geographical communities and with communities of interest.
- 4.6. In line with the National Standards for Community Engagement as well as the Participatory Budgeting Charter, a range of different options as to how people can participate in the process will be needed to ensure that as many people as possible are able to have their say. This may include online methods, focus groups, the use of paper ballots or other methods that are suited to the decision the public are being asked to contribute to.
- 4.7. Initial proposals as to the processes which could be used have been identified and are included in Appendix 1.

5. Participatory Budgeting Charter

- 5.1. A Participatory Budgeting Charter has been published by Participatory Budgeting Scotland. Participatory Budgeting Scotland is a network funded by the Scottish Government and developed by Scottish Community Development Centre, the recognised lead body for community development within Scotland. This charter lays out features of what a fair and quality Participatory Budgeting process should be.
- 5.2. The charter states that Participatory Budgeting is a way of making sure that everyone affected by a decision has an opportunity to share their views and listen to others.
- 5.3. There are 7 key “Features” of the Participatory Budgeting Charter for Scotland. These are: -
 - Fair and Inclusive
 - Participatory
 - Deliberative

- Empowering
- Creative and Flexible
- Transparent
- Part of our democracy

5.4. The charter was co-produced by people with experience of Participatory Budgeting processes in Scotland, including those from equality groups, community organisations and public bodies, and provides a good practice guide as to what a fair and high quality Participatory Budgeting process should look like. The Council will look to link our plans to deliver Participatory Budgeting to meeting the aims of the charter.

6. Role of Elected Members

6.1. An elected member briefing on Participatory Budgeting has been developed by the Improvement Service. As part of this guidance, the role of elected members is covered. A revised briefing has been drafted by the Improvement Service and shared with the Council through Cosla's Community Wellbeing Board in January. We still await the final publication of this updated guidance.

6.2. The revised briefing states that elected members are best placed to represent the interests of the community and that they have a key role to play, working with communities to achieve consensus, participation and representation. Visible and engaged elected members can help reassure participants on the accountability of Participatory Budgeting outcomes.

6.3. The briefing details roles and responsibilities for elected members in relation to Participatory Budgeting, including:

- To ensure the aims of the process are clearly understood by all participants.
- To make sure the relevant resources to run an effective Participatory Budgeting process are in place.
- To ensure the process is inclusive and promotes the participation of communities in all stages of Participatory Budgeting design.
- To engage with local people to raise awareness of local Participatory Budgeting activity
- To encourage and support the local community to participate in the process.
- To support decisions made by local people.

6.4. Support can be provided to elected members through appropriate training on Participatory Budgeting, through regular updates on progress and, of course, through the work that the Community Participation and Empowerment team undertake in the community.

6.5. Through the work being taken forward by the Standards and Procedures Advisory Forum (SPAF), the role of Area Committees in Participatory Budgeting was clarified.

- 6.6. The Council meeting on 13 February 2020 agreed a change in the Terms of Reference for Area committees including the power to:

“To carry out a scrutiny function, at a local level, in relation to participatory budgeting”

- 6.7. As the majority of Participatory Budgeting is envisaged to be covered under “mainstream Participatory budgeting”, it is being proposed that the community would be provided with service delivery options to choose from. Members’ roles would include being consulted on the options being presented to the community, and on the results of the Participatory Budgeting exercise.

7. Employee Implications

- 7.1. At this stage, there are no employee implications in terms of the content of this report.

8. Financial Implications

- 8.1. There are no financial implications contained within this report.

9. Climate Change, Sustainability and Environmental Implications

- 9.1. There are no implications for climate change, sustainability or the environment in terms of the information contained in this report.

10. Other Implications

- 10.1. N/A

11. Equality Impact Assessment and Consultation Arrangements

- 11.1 This report does not introduce a new policy, function or strategy, or recommend a change to an existing policy, function or strategy and, therefore, no impact assessment is required.

Paul Manning

Executive Director (Finance and Corporate Resources)

29 May 2020

Link(s) to Council Values/Ambitions/Objectives

- Achieve results through leadership, good governance and organisational effectiveness
- Accountable, effective, efficient and transparent
- Fair, open and sustainable
