## 3. Background

3.1. In terms of the Fire Safety and Safety of Places of Sport Act 1987, a General Safety Certificate is required for a stand at a sports ground which can accommodate at least 500 spectators under cover to view the activities at the ground. A stand which falls within this classification is referred to as a “regulated stand”. New Douglas Park had previously been identified as a sports ground with regulated stands.

3.2. The revised format of the General Safety Certificates for the North and West Stands at New Douglas Park was approved by this Committee at its meeting on 11 December 2013. A single Certificate, in the same format, covering both Stands was approved by this Committee at its meeting held on 10 November 2021. The Certificate requires to be reviewed and re-issued annually.

## 4. Re-issue of the General Safety Certificate

4.1. At the annual safety inspection which took place on 16 June 2022, the North and West Stands at New Douglas Park were found to be well maintained and the Council’s Planning and Economic Development Service was satisfied as to the condition of the primary structural elements of both the North and West Stands.

4.2. All of the relevant inspection certificates and test records were available for inspection with the exception of the certificate for the water storage system which had since been provided by stadium management.

- 4.3. The engineer's structural inspection report had not identified any apparent structural defects. A number of observations had been made on minor defects and the Stadium Manager had made a commitment to action the items within 6 weeks of the date of the inspection.
- 4.4. A small number of additional actions and housekeeping issues had been identified during the inspection which were to be completed as soon as practicable, or within specified timescales, as agreed with the Stadium Manager.
- 4.5. Stadium management have since provided updates indicating that the defects identified in the engineer's structural inspection report have been addressed and the other actions identified during the inspection have been completed.
- 4.6. Stadium management and the South Lanarkshire Sports Grounds Safety Advisory Group had reviewed the General Safety Certificate and the safety management arrangements at New Douglas Park and the following changes had been made to the Certificate:-
- ◆ name of the sports ground has reverted to New Douglas Park (previously Foy's Stadium)
  - ◆ Certificate now refers to all persons/people as opposed to spectators
  - ◆ details of 2 additional and suitably qualified Deputy Safety Officers have been included
  - ◆ the capacities detailed at appendix 2 now include spectators and others present (players/officials/staff/contractors/other essential personnel)
- 4.7. Clyde Football Club will play their home games at New Douglas Park during the 2022/2023 season and the Operations Manual, included as an appendix to the General Safety Certificate, has been amended by stadium management to reflect this.
- 4.8. The Executive Director (Finance and Corporate Resources), in consultation with the Chair and an ex officio member, approved the reviewed General Safety Certificate for the North and West Stands at New Douglas Park to allow it to be re-issued prior to the start of the 2022/2023 football season which commenced on 30 July 2022.
