Comments Details

**Commenter
Type:** Neighbour

Stance: Customer objects to the Planning Application

**Reasons for
comment:**

Comments: Would like to object to the proposed development the
reasons are

- The proposed development do not support development plans as this is not part of new cluster ,group or existing cluster of houses
- The proposed development would constitute backland development
- The development does not respect the specific local character and existing pattern of development within Kilcaczow which is linear in nature
- Total loss of outlook , privacy and over bearing to existing residents
- Increased traffic and with off road parking , access to the site will cause dangerous driving conditions to the proposed site

- The area is prone to floods as the the recent weather has shown

Hope you consider my objection to this development

Yours

Emmanuel Mutumha
